Instructions:

Coat an ATC Art Square with gel medium and let dry. Stamp branch from "Nature's Gifts" in VersaMark Watermark ink on top of the gel medium and heat emboss with white powder. Add watercolors as desired. Brush on another coat of gel medium and let dry. Repeat the above mentioned process starting with stamping and heat embossing the branch. Edge the sides with a permanent black marker. Seal the piece by spraying with an acrylic coating. To create the card base, score a 4" Art Square ½ inch from the top and score on the reverse side with a stylus. Apply glue to the "tab" and secure to a second 4" Art Square. Edge the sides with gold ink, wrap with a ribbon, and accent with a button. Attach the finished water colored ATC Art Square over the ribbon with foam dots.
