

Penny Black PROJECT GUIDE

Designer Name: Heather Telford

Penny Black Products Used: 51-318 bamboo cut out, 51-105 for you

Additional Products: white yupo paper, black cardstock, honeycomb & stream alcohol inks, rubbing alcohol or blending solution, double sided adhesive, 'press n seal'

Instructions:

Drizzle a couple of colors of alcohol ink on a non-porous surface. Add some blending solution to dilute and spread the colors.

Pull a piece of white yupo paper through the alcohol inks to pick up color. Pull the paper through the colors multiple times until happy with the pattern on the yupo. Let it dry.

Attach double sided adhesive sheet to the back of black cardstock. Cut the bamboo die from the black cardstock. While the pieces are still in the die press a piece of 'press and seal' over them so none go missing.

Remove backing from adhesive on die cuts. Position die over painted yupo panel and press bamboo pieces out of die and onto yupo.

Die cut sentiment from black cardstock backed with adhesive then attach to yupo panel.

Mat yupo panel with black cardstock, attach to white cardbase.
